- The 750 Motor Club
- The Combined One Make Car Club
- The Lloyds Motor Club
- The Herts County Auto & AE Club

## THE EIGHT CLUBS 1996 SILVERSTONE RACE MEETING

OFFICIAL PROGRAMME 50p

## THE EIGHT CLUBS

One of the social effects of the second World War was to introduce the widest possible cross section of the public to the potential pleasures of the car. When hostilities were over, this new enthusiasm quickly found its fulfilment in the formation of many motor clubs and thence to a desire for competition. However, the running of a full blown race meeting was something few of the fledgling clubs, or most of their older one-make brethren for that matter, could contemplate. So, some 5 years after the outbreak of peace, representatives of 8 motor clubs, all based in central southern England, met under the Chairmanship of a certain Holland Birkett to form an Association for the sole purpose of organising a race meeting for the combined membership. This, it was resolved, should include non-competitive high speed trials and should seed competitors for scratch as well as handicap races.

On 3 June, 1950, the first of the series of Silverstone Race meetings took place and, apart from a brief flirtation with rallying (Eight Clubs Eastbourne Rally), and a second race meeting for a few years at Lydden, the Association has run one race meeting each year at Silverstone ever since.

Very few changes in the composition of the Association have occurred over the years. The only withdrawal, in the 1950s, was Lagonda CC, while the Combined One Make CC, itself an association of more than 20 Clubs, Herts County A&AeC and Lloyds MC have joined since.

Holland Birkett was the inspiration of four projects which have been going strongly for over 40 years:- the Eight Clubs, the Six Hour Relay Race, the 750 Formula and the 1172 (now 1300) Formula. Races for the 2 latter are still an integral part of Eight Clubs race meetings today.

Glancing through an old programme, one notes that there were 2 one hour high speed trials and that the last event - out of no less than 16 - started at 7.45 pm. Advertisements showed Motor and Autocar at 5p apiece and Autosport expensive at 7½p! It is, however, not only costs that have changed since then. Legislative and other pressures have taken their toll. There is now only one high speed trial of 20 minutes and the last race has to be started soon after 5 pm. Even so, the annual meeting at Silverstone still shows a wider field of racing machinery than you will find anywhere else and still includes seeded scratch and handicap races as well as the high speed trial and Formula races.

We hope that, whether as competitor, helper or spectator, you will enjoy today's event just as much as did those pioneers of nearly fifty years ago.
